

Displaying the date

Written by Administrator

Thursday, 30 June 2011 05:03 - Last Updated Thursday, 30 June 2011 05:03

The Newscycle template has the option of displaying the date in the top1 position. You can see this in the screenshot above and of course at the top of the demo page. The date is enabled via a parameter in the template settings and there are eleven different date formats to choose from.

You can see the date formats available in the screenshot below.

Display date?	<input checked="" type="radio"/> Yes <input type="radio"/> No
Date Format	Tuesday 15 Se
